Junior Domestic Competition Representative Player Points Policy

1. Purpose

This policy is designed to ensure fairness and balance in KBA Junior Competitions by regulating the number of high-level representative players permitted in a team. It encourages long-term player development within clubs while preventing the formation of dominant teams.

2. Player Points Allocation

- Each player is allocated points based on their most recent VJL season as per the table below:

Player Level	Points
VC (Victorian Championship)	4 points
VJL 1	3 points
VJL 2-3	2 points
VJL 4-5	1 point
VJL 6 & Lower / No Rep	0 points

3. Team Points Cap & Seasonal Adjustments

- If a player's most recent VJL season was in a younger age group than their domestic team, they receive a one-point deduction from their previous classification. Example: If a player's last VJL season was from U14s VC level (four points), but they are playing U16s domestically, they will receive a one-point discount.
- Total team points must not exceed 10.
- This cap applies at the start of the season and teams must remain at or below 10 points throughout.
- If a player does not make a representative team before the beginning of the Winter domestic season, they retain the points from their last confirmed VJL season.
- Players who are not currently playing representative basketball but have in the past will lose one point **per year** from their last representative season.

4. Loyalty Discounts

- Players who have been with the same domestic club for two years (four seasons) or more will receive a discount of one-point. This applies to a player once per club tenure.
- Loyalty discounts do not apply to fill-in players.
- A player may receive only one discount (either seasonal adjustment or loyalty, not both).

5. Fill-In Player Rules

- Fill-in players must be sourced as per the fill-in policy.
- Fill-in players must not cause the team to exceed 10 points. Example: If the remaining players equate to eight points, the fill-in must be two points or lower.
- Fill-in players do not qualify for any discounts.

6. Enforcement & Consequences

- Teams exceeding the allowed points cap must adjust their roster before the season starts.
- All KBA Junior Domestic Competition By-Laws representative player-related rules remain in place and must be adhered to.
- Mid-season adjustments due to representative promotions will be reviewed at the beginning of the next season.
- Teams found intentionally misrepresenting player experience will face penalties, including possible disqualification from the competition.
